

Day oncology and infusion services

The day oncology and infusion service at Cabrini Brighton provides care in a supportive, modern and therapeutic environment offering chemotherapy and infusion treatments to residents of the Bayside and surrounding areas.

You will be cared for by an experienced team of oncologists, haematologists and other medical specialists, and will be treated in a relaxed, welcoming environment.

The multi-disciplinary team also plays a significant role in minimising discomfort and offering support. As well as the specialists, the team includes nurses, dieticians, psychologists, social workers, a pastoral care practitioner and breast care nurses.

Cabrini Brighton provides day oncology services for the following tumour streams:

- Bone and soft tissues
- Breast
- Colorectal
- Gynaecology
- Haematology
- Lung
- Skin and melanoma
- Upper gastrointestinal
- Urology

Oncologist/Haematologist

Dr Yoland Antill
