

Cabrini Continence Service

Cabrini aims to provide quality, holistic care which empowers you and your family to enhance your health and quality of life.

About the service

The Cabrini Continence Service offers expert help for patients with bladder and bowel issues.

Our team of nurses provide continence and urological nursing advice, education, management and support for patients and their carers.

The service provides support for issues including, but not limited to:

- Patients discharged home with an indwelling catheter, suprapubic catheter or percutaneous nephrostomy
- Ongoing permanent catheter changes
- Patients requiring continence advice and product information
- Post-surgical patients who require catheter removal
- Self-catheterisation education
- Patients requiring outpatient bladder scans or urine flow testing

If you need support for another problem or unsure of your needs we encourage you to contact the service as we still may be able to assist.

Cost

There may be an out of pocket cost associated with this service and you will be advised of this prior to your appointment.

Referral

If you are a Cabrini inpatient, you can access the service while in hospital by asking your medical team to refer you. Following your hospital stay you can also attend our clinic by calling the number overleaf to arrange an appointment.

If you are not a Cabrini inpatient you are still very welcome to access our service. You don't require a written referral however any clinical information that can be provided by your health care provider would be beneficial.
