

Evidence-Based Practice Across Allied Health Disciplines

Project Title	Presenting Author	Poster Number
A patient 'nudge' letter did not reduce inpatient rehabilitation following joint replacement surgery: A randomised controlled trial with nested qualitative study	Jason Wallis	1
Communicating safe eating & drinking in dysphagia management: A retrospective audit	Madeleine Ebinger	2
Spontaneous swallowing in Parkinson's Disease	Kendra Tabor	3
Improving malnutrition management at Cabrini Health	Kellie Wright	4
Ensuring Safe Patient Meals Through Packaging Reviews and Digital Menu Updates	Claire Deagan	5
Quantifying unopened packaged food waste at Cabrini Health: a pilot audit	Emma Pryn	6

Atrial Fibrillation: Integrating Therapy, Imaging, and Digital Health

Project Title	Presenting Author	Poster Number
Yoga vs Regular Exercise for Atrial Fibrillation: Design of the Yoga-AF Randomized Controlled Trial	Rose Crowley	7
Cardiac magnetic resonance left atrial ejection in atrial fibrillation and heart failure	Kenneth Cho	8
Recovered atrial fibrillation mediated cardiomyopathy: pharmacotherapy withdrawal cost-effectiveness	Kenneth Cho	9
The ceiling effect of heart failure pharmacotherapy in acute LV recovery patients with AF mediated cardiomyopathy prior to rhythm control	Kenneth Cho	10
Long term outcomes post ablation in patients with heart failure with reduced ejection fraction	Kenneth Cho	11
Assessing the utility of smartwatches in detecting transient bradyarrhythmia: The Brady-Watch study	Jeremy William	12
Does left atrial size predict ablation success in patients with persistent AF?	Jeremy William	13

Medication Management at Critical Points in Care

Project Title	Presenting Author	Poster Number
Antimicrobial prescribing patterns in the last 2 weeks of life at a single tertiary hospital	Athena Asmanis	14
Early vs Delayed Anticoagulant Initiation: venous thromboembolism risk after a total knee replacement/revision	Ruiqi Zhou	15

Smartwatch Readings: Challenges in Pediatrics

Project Title	Presenting Author	Poster Number
Misinterpreting Smartwatch Readings – A New Childhood Entity	Rachel Lim	16

Innovations in Treating Menopausal Depression

Project Title	Presenting Author	Poster Number
Bazedixifene plus conjugated estrogen to treat menopausal depression – a pilot study	Eveline Mu	17

End-of-Life Care in Residential Aged Care: Preferences, Planning, and Outcomes

Project Title	Presenting Author	Poster Number
Quality Indicators of End-of-Life Care for Elderly Patients from Residential Aged Care Facilities	Archie Musafir	18

Innovations in Pelvic Organ Prolapse Grafting

Project Title	Presenting Author	Poster Number
Uncovering the immunobiology and biomechanics of Human Fascia Lata as an autologous graft for Pelvic Organ Prolapse treatment	Lily Anthony	19

Digital Tools and Registries Driving Quality in Cancer Care

Project Title	Presenting Author	Poster Number
Retrospective analysis of an electronic supportive care screening tool utilised for Cabrini cancer patients	Jovana Marjanovic	20
Patient experience of an electronic supportive care screening tool utilised for Cabrini cancer patients: a prospective analysis	Jovana Marjanovic	21
Do clinical quality registries affect quality indicator outcomes? Victorian Lung Cancer Registry impacts on multi-disciplinary lung cancer meeting presentation	Gary Richardson	22

Exercise and Cancer: What the Latest Research Shows

Project Title	Presenting Author	Poster Number
Exercise effects on lean body mass, muscle strength and physical function in patients with metastatic breast cancer	Eva Zopf	23

Spatial Biology and Advanced Models in Breast and Colorectal Cancer Research

Project Title	Presenting Author	Poster Number
Spatial Transcriptomics Reveals Heterogeneity and Microenvironmental Shifts in Breast Cancer Subtypes and Metastatic Progression	Dilys Leung	24
A spatial atlas of colorectal cancer reveals the influence of stromal niches on tumour differentiation	Andrew Pattison	25
Mimicking cancer cell communications using assembloids as advanced models of breast cancer	Jasveena Kaur	26

Advances in Prostate Cancer Treatment: Imaging and AI

Project Title	Presenting Author	Poster Number
A machine learning model to aid patient selection for focal treatment of prostate cancer	Yen Lim	27
The role of imaging after irreversible electroporation for prostate cancer	Yen Lim	28

Prognostic Modelling and Risk Stratification in Colorectal Cancer

Project Title	Presenting Author	Poster Number
Developing AI approaches to unravel factors that drive disease relapse in low risk, early-stage colorectal cancer	Charla Lu Chai	29
Prognostic factors of cancer recurrence in patients with low-risk colorectal cancer after surgery	Charla Lu Chai and Christine Georges	30
A clinician-friendly dynamic nomogram to evaluate the obesity paradox in colorectal cancer survival outcomes	Simon Wilkins	31
The complex and combined effect of gender, age, body mass index, and tumour site on postoperative colorectal cancer outcomes	Simon Wilkins	32
Association of comorbidity with recurrence and survival outcomes in colorectal cancer patients	Mohammad Asghari-Jafarabadi	33

Evidence and Guidelines for Early-Stage Esophageal Cancer

Project Title	Presenting Author	Poster Number
Management of cT2N0M0 Esophageal Cancer: A systematic review and clinical practice guidelines	Yousif Eliya	34

Innovations in Cancer Treatment: Trial Results & Insights

Project Title	Presenting Author	Poster Number
D3S-001 in advanced solid tumors with KRASG12C mutations: a phase 1 trial	Gary Richardson	35
A phase 1a study of a novel anti-HER2 antibody-drug conjugate GQ1001 in patients with previously treated HER2 positive advanced solid tumors	Gary Richardson	36
Safety, pharmacokinetics (PK), pharmacodynamics (PD), and preliminary efficacy of HLX301, a bispecific antibody targeting PD-L1 and TIGIT, in patients with advanced solid tumors	Gary Richardson	37
First-in-human dose escalation study to investigate the safety, pharmacokinetics, pharmacodynamics and initial efficacy of mRNA-LNP MT-302 in vivo CAR therapy in solid tumors	Gary Richardson	38
Amivantamab-chemotherapy in NSCLC with EGFR exon 20 insertions: Treatment crossover analysis from PAPILLON	Gary Richardson	39
Patient-reported outcomes and time to symptomatic progression from PAPILLON: amivantamab plus chemotherapy vs chemotherapy as first-line treatment of EGFR exon 20 insertion-mutated advanced NSCLC	Gary Richardson	40
Pharmacodynamic characterization of PRS-344/S095012, a PD-L1x4-1BB antibody-Anticalin fusion protein (Mabvalin), in a dose escalation study in patients with advanced solid tumors	Gary Richardson	41
